

I express my deepest appreciation to the law firm of Strindberg and Scholnick for its outstanding work concerning my case. The Firm exceeded my expectations and the outcome of the case proved to be a wonderful success as it challenged and prevailed against misconduct in the workplace. In victory, the Firm has set a standard for other employment lawyers to emulate.

To its credit the Firm displayed very high standards of professionalism. Its quality of judgment, commitment, mental and physical energy was unsurpassed.

I especially want to commend Lauren and Erika for their unadulterated professionalism, competency and excellence. Their skill set and staying power proved timeless. For six long-drawn-out years they communicated my case to the court with exceptional interpersonal proficiency. As a result, my respect as well as that of my family and various actors of the court was won.

I also want to commend Lauren and Erika for the manner in which they introduced and discussed inside information with me. Such communication proved to be grounded on sound, factual and objective information, which was to my liking as such discussions were based on excellent understanding of employment law, rather than on bias and emotional opinion.

Finally I want to thank the Firm, its staff, and in particular Lauren and Erika for superb representation and moral support. Concerning the latter, I will never forget your benevolence as you went beyond the duties of a lawyer and allowed me to cry on and seek your shoulder for comfort when all around me appeared to have collapsed. Indeed, words alone will never express my gratitude.

Best regards and may peace be with all of you.

Ranée
